**Tweet:** The WSJ tested out @SpaceX's Starlink Wifi on an Airplane and was blown away: "It was like working from home, but home is an airplane seat. Google Docs, slack web browsing, Spotify, it all kept up the whole time and there were no dropped connections." Starlink had 4x lower latency than the next best Wifi system they tested. Full video:

**Tweet:** ■■ REAGAN: MY PRESIDENCY WASN'T A REVOLUTION... IT WAS A REDISCOVERY OF COMMON SENSE "They called it the Reagan Revolution. I'll accept that. For me, it always seemed more like the Great Rediscovery—a rediscovery of our values and our common sense. Common sense told us that when you put a big tax on something, people will produce less of it. So, we cut the people's tax rates, and they produced more than ever before. The economy bloomed like a plant that had been cut back and could now grow quicker and stronger. Real family income went up, the poverty rate went down, entrepreneurship boomed, and there was an explosion in research and new technology." Source: The Reagan Library , 1989
